ADMINISTRATOR'S STATEMENT

SIGNIFICANT CHANGES IN POLICY:

There are no significant changes in policy impacting this budget request.

SIGNIFICANT CHANGES IN THE PROVISION OF SERVICES:

San Jacinto College continues to go through transformational change to create efficiencies and provide value to our students and our community. Several items of significance include:

- Broadly implementing Open Educational Resources providing more effective and faculty-driven resources for students in their course work while significantly reducing the cost of textbooks to students.
- Implementation of Guided Pathways across the College. This streamlines degree programs and cross references university transfer programs with our top two transfer universities. This helps students navigate schedules and choose courses that will transfer to their desired degree program.
- San Jacinto College is systematically and carefully increasing eight-week course offerings to help students complete their courses and encourage part-time students to take one extra course during the 16-week semester.
- Implementation of "Aid Like a Paycheck" and financial counseling are moving to a second year at scale after some adjustments the College will implement based on Fall 2017, Spring 2018, and Summer 2018 results. This work has helped students reduce debt and the College will continue tracking with the adjustments being implemented for Fall 2018.
- San Jacinto College will continue work on safety and security measures for students and employees. The College has initiated some of this work and continues to work through assessment and funding to update priority items.
- San Jacinto College is working with Houston-area businesses and higher-education institutions to update curriculum, to implement initiatives that foster innovation and advanced manufacturing, to upskill current workers, and to train an incoming workforce for the highly technical jobs that this region would like to attract.

SIGNIFICANT EXTERNALITIES

The San Jacinto College taxing district and service area continues to change in demographics. The College service area and school districts are increasing the percentage of students that are Hispanic. According to projected census data, by 2022, the San Jacinto College District will consist of nearly 53 percent Hispanic constituents with a median age of 33. In addition, the average household income is projected to be about \$85,000, making the affordability of community college a needed higher educational opportunity. The region is also seeing a trend that approximately 50 percent of high school graduates chose not to attend higher education anywhere.

In response, San Jacinto College is implementing high-touch tactics to help students, more than 75 percent of whom are first generation college students, to navigate the admissions and registration processes. The College is targeting recruiting efforts to the 21 feeder high schools to provide information about the benefits of attending college. The College is also targeting specific areas in the district with low attendance rates with recruiting efforts. These efforts require high levels of engagement with students and therefore require more staffing at the College.

PURPOSE FOR ANY NEW FUNDING REQUESTED:

San Jacinto College respectfully supports the \$1.9 billion formula funding request submitted by the Texas Association of Community Colleges (TACC) in its letter dated July 24, 2018. With additional funds the College will:

- Continue the implementation of Guided Pathways.
- Continue the implementation of Open Educational Resources.
